SUMMARY

"Aspiring React Developer and UI Designer with a strong foundation in crafting modular, responsive front-end components using React and Tailwind CSS. Proficient in bridging the gap between high-fidelity prototypes and production-ready code, supported by professional experience in Adobe Creative Suite and Figma. Developed functional web applications including a cloud storage platform and interactive canvas tools, demonstrating expertise in state management and API integration."

TECHNICAL SKILLS

Programming Languages: JavaScript, Typescript

Frameworks: React, Tailwind CSS, Bootstrap, Next JS

Developer Tools: Git, GitHub, VS Code, PostMan, Netlify, Vercel

AI & APIs: Open Router, Firebase Auth, Appwrite

Design Tools: Photoshop, Illustrator, Canva, Figma, CorelDraw

Libraries: Chart JS, Lucide Icon, Framer Motion, Shadcn/UI, Uiverse

PROJECTS

Cloud-Vault

Mar 2026

Cloud Storage

React, Tailwind CSS, Firebase, Appwrite

- Architected a cloud storage platform using React and Tailwind CSS, minimalist UI
- Implemented secure user authentication and RESTful API communication using Firebase Auth and Axios
- Integrated Appwrite API for secure file management, handling asynchronous document uploads and metadata storage

Drawing Canvas

Feb 2026

Web Drawing Canvas

React, Tailwind CSS

- Engineered an interactive HTML5 Canvas application supporting custom geometry rendering and dynamic color selection
- Implemented a robust state management system to support non-linear user actions, including multi-level Undo/Redo and canvas clearing

Next JS Dashboard

Apr 2026

Dashboard

Next JS, React, Tailwind CSS, PostgreSQL, Next.auth

- Architecture & Routing: Implemented a complex routing system including nested layouts, dynamic routes for invoice editing, and protected route groups.
- Data Management: Engineered a relational database schema using PostgreSQL, utilizing Server Components for secure, direct database fetching and Server Actions for type-safe data mutations (Create, Update, Delete).
- Authentication & Security: Integrated NextAuth.JS for secure user authentication, managing session states and protecting sensitive dashboard routes.
- Advanced UI/UX: Built a fully responsive, accessible interface with Tailwind CSS, featuring custom loading skeletons, denounced search functionality, and client-side form validation.

EDUCATION

Government Arts And Science College Palladam

B Sc Computer Science

Tirupur

2021 - 2024

CERTIFICATIONS

- Web Development Fundamentals by IBM Skill Build – 2023

HTML, CSS, JavaScript

- MERN Stack by Udemy – 2025

React, Node JS, Express JS, MongoDB, Git GitHub

- React Foundation for Next.JS By Vercel— 2026

React, Components, State, Props, Hooks

- Advanced Excel by Excel Champs— 2024

Excel Formula, Pivot table, VLOOKUP

- Next JS App router Fundaments – 2026

Next JS, Next.Auth

EXPERIENCE

Graphic Designer

Pigments Studio

Collaborated on UI/UX workflows and translated high-fidelity designs into functional components.

Jan 2025 – Mar 2026
